Dear

Important message from me, one of your voters, and from the major Brexit organisations, reflecting the views of millions of voters across the country and in your constituency.

“Deal or Walk”

It took the EU more than three years and eight months after the British people voted to leave the European Union before the EU was ready to even start talking about a trade deal. In hindsight, this should have told us all everything we needed to know.

Three trade deal deadlines have now passed: 30 June, 31 July, and 15 October. This Thursday 19 November the EU27 leaders are meeting and it was hoped a deal would be ready to be discussed. Sadly the EU remains intransigent on fundamental matters which are entirely normal when dealing with an independent and sovereign country, and the UK-EU trade deal is not even on the agenda at its meeting.

In light of the EU’s behaviour, the only reasonable and practical action is to call a halt. The United Kingdom cannot be trapped in negotiations where the other party’s priorities are not trade, but political ideology and the desire to see a departing country be damaged. The UK’s economic interests, jobs, and freedoms must now come first.

The United Kingdom’s negotiating team led by Lord Frost has been immensely patient, and its efforts have been valiant, but enough is enough. No country in the World could agree to the EU’s continuing demands. It is not even remotely possible to ‘meet half-way’.

**We voted to Leave and to Take Back Control
It’s Time to Take our Leave
This Thursday it must be “Deal or Walk”**

This letter is being sent to you by the Big Brexit Initiative – the grouping of major Brexit organisations, together with many key individuals – combined behind one message to Government. We very much hope you will act on it now.

Yours sincerely,
The Big Brexit Initiative of major Brexit organisations
